One of the firm said he was not at liberty to make the particulars of the case public until Mme. Patti had gone over the papers. Mr. Maretzek's claim, he said, was twenty years old. Mr. Maretzek had evidently written to Mme. Patti of his intention of bringing the suit, because she had instructed the firm to appear for her in the matter. To a question if the amount of the claim was \$40,000, as had been reported, the answer was that it was not so much. Mr. R. S. The circulars were approved by Secretary Hunt and placed on every floor, but caused so much unfavorable comment that the Secretary to-day ordered them all to be removed.

To gain admission to the Criminal Courtroom this morning was a matter attended
by many difficulties. A great mass of people

of women and girls, began to arrive about

Nothing unusual occurred in bringing the prisoner from the jail to the conthouse. Precautions were taken to prevent any assault or demonstration looking to a repetition of the scene of last Saturday. Six mounted policemen, in addition to the regular guard, were on hand to do the escorting. Deputy-Marshals Williams and Tall were on hand, giving personal supervision to the transfer. Capt. Tall met Guiteau in the Warden's office, and said: "Why, they went for you after I left you on Saturday."

"Yes," said Guiteau, "they did. I wish you would stay with me all the time. I think they are afraid of you."

Capt. Tall promised to see that no harm came to him, and Guiteau walked out of the door of the jail and into the van. In doing so he stopped long enough to see that his guard had been increased, expressed himself satisfied, the door was shut and the van came up to the City Hall without receiving more notice than is given it on ordinary occasions.

After he arrived at the Marshall's office he showed the cut of the coat-sleeve, and was speaking of the attempt to kill

him.

Arrival at the City Hall.

Guiteau and party arrived at the City Hall about 9 o'clock. At that time Louisians avenue was packed with people. They were orderly, but after the events of Saturday especially cager to catch a glimpse of Guiteau. He was taken from the van and hurried along the opening formed by the police into the building.

He had on the same clothing he wore Saturday, and the cut in his coat sleeve was plainly visible. Guiteau's hat was pulled down over his eyes and he cronched closely to his guard as they hurried along. Once in the building he breathed easier. He was taken at once to the Marshall's office, where breakfast was served, and no one was allowed to see him.

was much smaller than usual. Guiteau was brought in at 10:15 o'clock. He looked nervously over the spectators as he entered. In his hands he carried newspapers, and while his handcuffs were being removed he whispered to his guard. He shook hands with his sister, said a few words to his brother and then began writing. He did not write long, but took a newspaper handed him by Mr. Scoville and began reading a marked article therein contained with interest.

His Honor said that the Court would take cognizance of that fact.

Cel. Corkhill said that the other point there was no denonstration of violence. Guiteau, confined in the Marshal's private brought in at 10:15 o'clock.

Mr. Robinson Asks to be Relieved. Mr. Robinson at 10:20 o'clock arose and said that he had read an article published in the Washington Post yesterday which necessitated an explanation from himself. On the 22d of October last he came into the case. He felt the responsibility laid upon him. His first move was to secure a postent of the case, in order that he could

close up some private affairs.

This met Mr. Scoville's approval. After-terward he made another application for delay to secure additional counsel and more witnesses. Mr. Scoville was in court and heard the motion, and he thought that the motion was approved. Four days later he was informed that Mr. Scoville had requested the court privately not to grant the motion and it was denied. It seemed that when he had put his private practice aside he might have been entitled to some

onsideration in this matter.

It struck him that Mr. Scoville's attitude toward him was singular, and concluded toward him was singular, and concluded that he ought to have associate counsel who would work in harmony with him. He had failed in securing such counsel, his motion to that end having been denied at Mr. Scoville's request. Mr. Scoville had complained of lack of etiquette, but he did not perceive why. Had he have known of the undessantness that was to arise, he of the unpleasantness that was to arise, he would have then asked to be relieved from the case. He here read from yesterday's Post the article in which Mr. Scoville declared that the malpractice issue should be carried no further, and that Robinson would be requested to retire from the case. This paper had been handed him by a friend at his home in the county last night. Havat his home in the county last hight. Having seen it in advance of coming to court today, he had had ample opportunity
to come forward to protect his self-respect, and he concluded to ask to be relieved. Mr. Scoville and himself had

Continuing, the speaker said everything to proceeded well until last Saturday, when Mr. Robinson made the cross-examination of Dr. Bliss. It was then indicated that malpractice was to be set up as a defense. "I disapproved of it. I said that it must stop, or I would retire from the case. I had said sometime since that this defense would not be allowed, and I repeat it." It was unfortunate that the counsel should differ, but it had been inavoidable.

Mr. Robinson is Honorably Discharged.

Judge Cox said that the thanks of the Court were due to Mr. Robinson for the promptness with which he had responded to the request of the Court when assigned as counsel. He knew that the gentleman left important business when he came into the case. He had seen for several days that the position of Mr. Robinson was an uneviable one, and he was constrained, under the circumstances, to give Mr. Robinson a most honorable discharge. Mr. Scoville, he was satisfied, had mastered the case and probably would be able to get along without assistance.

Mr. Scoville stated that he would not be left entirely alone, as he was expecting every day to have additional counsel.

Guiteau's Theories. "I wish," broke out Guiteau, 'to say one word on the question of malpractice. We do not intend to make it a defense. But my theory of this malpractice is just this, that when the physicians gave out about July 25 that the President was getting better, and thereafter death occurred, it did not result from the shooting, but the treat-ment of the physicians. I want this to go on record so that it can go up to the Court in Bane with my case. The Deity has taken my case in charge and will see that I am treated right. He has done well so far." The Testimony Resumed.

His Honor said that the Court would take cognizance of that fact.

Cel. Corkhill said that the other point was that the depot in which the President was shot is on ground the property of the United States, and in which the Government had sole title.

Mr. Scoville here requested that Guiteau be allowed to address the jury. He said that it was not a usual practice, but inasmuch as the Court had promised to grant the prisoner the privilege, he preferred that it be accorded now. The prisoner could address the jury now and he would follow.

The andience laughed at this, as Guiteau's motive in remaining seated was clearly evident.

Continuing. Guiteau said: "I would rather prefer, if the Court pleases, to act as advisory comused in this case, interjecting a remark or a correction once in awhile. [Laughter.] My address published last Monday in THE CRITIC will serve the purpose of an address to the jury.

Mr. Scoville regretted that any difference had arisen between the counsel, and he appreciated the sacrifices that Mr. Robinson had made. He was in court the morning that Mr. Robinson applied for an extension of time. The Court had made an order setting the hearing for the 14th of November, and expecting the trial to take place ber, and expecting the trial to take place in the setting the hearing for the 14th of November, and he appreciated the sacrifices that the setting the hearing for the 14th of November, and expecting the trial to take place in the setting the hearing for the 14th of November, and expecting the trial to take place in the setting the hearing for the 14th of November, and the way to this city. that account, he merely sought an honest verdict from the jury, based upon the facts which he would present to the best of his ability. He warned them of the strength of the defense, which he said, would prove an almost impregnable wall against the claim of murder set up by the Government.

ment.

Mr. Scoville, at 11:40 o'clock, asked that the case be carried over until to-morrow. This request the Court granted, and when the grand jury had entered and reported (as mentioned elsewhere). Guiteau was removed from the court-room.

The crowd of spectators, it was observed, was much smaller than usual. Guiteau was brought in at 10:15 o'clock. He was much smaller than usual. Guiteau was brought in at 10:15 o'clock. He one seemed anxious to catch a glimpse of the prisoner. Here and there young men on horseback were noticed.

In view of recent events

there was no demonstration of violence. Guiteau, confined in the Marshal's private was that the depot in which the President was shot is on ground the property of the United States, and in which the Government had sole title.

Mr. Scoville said that he would accept that as a fact.

District Attorney Corkhill then stated that the Government would rest.

The Defense Opens.

Mr. Scoville here requested that Guiteau be allowed to address the jury. He said that it was not a usual practice, but inasmuch as the Court had promised to grant the prisoner the privilege he preferred that the was the conduct had the prisoner was completely surrounded when he was hurried to the van.

Trial Notes.

The object in to-day's early adjournment of the court was to give Mr. Scoville an opportunity to confer with his witnesses. A number of the latter are expected to arrive here to night. Mr. Scoville's argument, as far as it has gone, has met with favorable comment for its modesty and entire lack of flowery sen-timent. Mr. Scoville is a deliberate, intel-

ligent speaker, but no orator. When the bullet found in the late Presiden't body was produced in cyldence to day several lady spectators were moved to tears. Guiteau seemed to take no interest

It now looks as though Guiteau's trial will end before the middle of next month. The defense believes it will close in ten days. It's a remarkable fact that while a great many very nice beople were excluded from the court-room to-day, three members of the demi-monde managed to get in and secure very prominent seats.

League. These threats have very little effect. The people are becoming more and more satisfied daily with the workings of the land law, and agreements between landlords and tenants, without going into court.
